TATAMI MAT
CARE INSTRUCTION

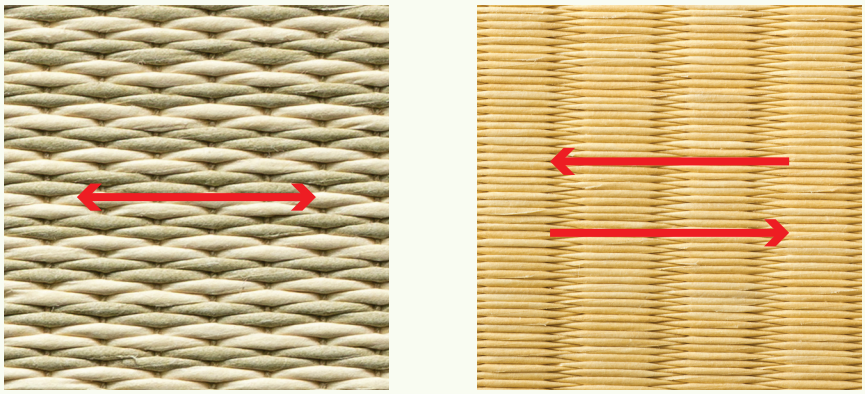
ROVE KYOTO

1. CLEAN & PRESERVE THE SURFACE OF THE TATAMI MAT:

1.1 Notes when cleaning the surface:

- Wipe the surface of the Tatami with a clean cloth.
- Or use a vaccum cleaner (if the quantity is large): Must choose the quiet suction mode to avoid scratches.

Important note: In order to preserve the mat surface from scratches and damages, please clean the surface of the mat in the direction of threads.



Clean from side to side, from border to border as direction in the picture.

- Average cleaning time: once every week, depending on the surrounding environment.
- No chemicals allowed when cleaning the surface.
- Do not place heavy objects with small contacts area on the mat, as they can scratch the surface of the mat, and induce the carpet.
- Do not rub too hard to the mat as it will scratch and fade its color.

1.2 When the surface is contaminated (including water, tea, coffee, soft drinkes, etc):

- Use a dry towel to absorb the wet area, if there is dirt or liquid, use a damp cloth to gently wipe the direction of the filament and use room spray for deodorizing.

  DO NOT RUB TOO HARD AS IT WILL AFFECT THE COLOR AND THE MAT'S DURABILITY.

2. CLEAN & PRESERVE THE BOTTOM AND THE BORDERS:

- Cleaning with a clean damp cloth. After cleaning, allow to dry completely and place on dry, clean floor.
- Place the Tatami mat on a flat surface, Do not place on convex and concave surfaces as it can cause cracking.
- Do not place the Tatami mat in a humid place - as this will easily mold the Tatami Mat
